EDUCATION

INDIANA UNIVERSITY BLOOMINGTON | Bloomington, IN **May 2026**

Bachelor of Science in Economics and Quantitative Methods (STEM); Minor in Psychology

Coursework: Econometrics, Machine Learning for Economic Data, Money and Banking, Game Theory

Leadership: Finance Chair, Principles of Cybersecurity at IU; managed a semester budget of approximately \$2,000 and coordinated financial logistics for three employer-led workshops serving 60+ attendees.

LONDON SCHOOL OF ECONOMICS AND POLITICAL SCIENCE | London, UK **Jul 2024 – Aug 2024**

Summer School – Intermediate Macroeconomics, Econometrics

PROFESSIONAL EXPERIENCE

NTALENTS.AI (Acquired by Unacademy) | Data Analyst Intern **May 2024 – Jun 2024**

Bangalore, India

- Analyzed up to 30,000 recruitment records across 3+ client accounts using MySQL joins and Python (pandas); flagged screening-to-interview delays for stakeholder review.
- Helped build Tableau dashboards tracking stage conversion and time-to-interview for monthly client reports; recommended priority follow-ups on stalled applications, contributing to 15% higher reported client satisfaction scores.

DLF LIMITED | Finance & Accounting Intern **Aug 2023 – Nov 2023**

Gurugram, India

- Processed 50–100 customer cheque payments daily in Ramco, resolving missing entries, duplicates, and amount discrepancies with manager approval.
- Built a reusable Excel reconciliation template using lookup formulas to review installments for approximately 200–300 customers, cutting monthly review time by 25% (8 to 6 hours).

SELECTED PROJECTS & PROGRAMS

UBI LABOR-SUPPLY ANALYSIS **Jan 2025 – Jun 2025**

Python | Sensitivity analysis

- Simulated 12 UBI and elasticity scenarios in Python; modeled a 2.4% reduction in work hours at \$12,000 annual UBI, 0.10 elasticity, and \$50,000 baseline income.

IU GLOBAL CAREER ACCELERATOR | Data Analytics Track **Jan 2025 – May 2025**

Six-credit experiential course using program-provided case datasets

- Built Tableau dashboards comparing electricity supply, demand, and renewable generation across 13 U.S. regions for an Intel sustainability case; identified the Northwest as having the highest renewable-generation share.
- Analyzed Grammy.com engagement using Excel PivotTables and KPI comparisons; found pages per session increased from 1.86 to 2.25 after a website split and recommended retaining separate sites.

DIGITAL BANKING & FINANCIAL INCLUSION **Sep 2024 – Dec 2024**

Mixed-methods research

- Analyzed group-collected survey data from 300 rural Indiana residents alongside banker interview findings; identified connectivity and digital-literacy barriers and recommended targeted education to support mobile banking adoption.

MARQUEE EQUITY | Investment Banking Fellow (Part-Time) **Jul 2022 – May 2023**

Remote

- Researched 15+ companies across TMT, consumer, education, and B2B services, assessing business models, funding activity, and competitive positioning to support company screening and investor research.

SKILLS

Technical & Analytics: Excel, SQL (MySQL), Python, Tableau, R, sensitivity analysis, statistical analysis

Finance: Financial statement analysis, financial reconciliation, investment research, valuation fundamentals

Languages: English (fluent); Hindi and Punjabi (native)
